

Setting Up A New Shopping Cart with Website Payments Pro

Since you don't already have a shopping cart, we strongly recommend a preintegrated shopping cart for the most straightforward, cost-effective solution. Follow these steps:

☐ **1** Choose a shopping cart from PayPal's list of compatible carts at: <http://solutions.paypal.com/procarts/>, and set up your cart. Then:

☐ **2** Log in to your PayPal account at: <https://www.paypal.com>

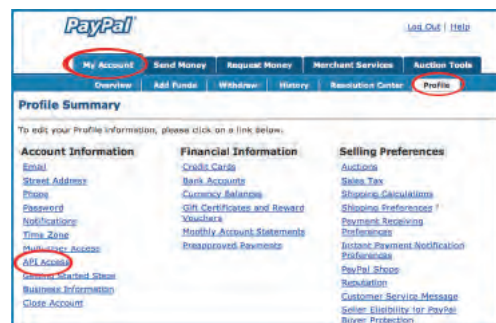

☐ **3** If you have not already done so, accept the terms of the Billing Agreement.

- View "Set up your payment solution" checklist in Account Overview

- Under "Accept billing agreement," click "Go"
- On the Billing Agreement page, click "Agree"

☐ **4** If your shopping cart requires it, set up your API access in your PayPal account profile. This can be done under "Account Information" on your profile at PayPal.com. Each shopping cart is unique, so work with your shopping cart provider for specific steps.

☐ **5** In your shopping cart's administration area, select PayPal Website Payments Pro as your payment processor.

If you have questions or concerns at any point during the integration process, please call PayPal's Integration Support team at **(800) 852-0403** (available 8:00 AM to 8:00 PM CST, weekdays).
